Just a heads up.....

Tito contacted me this afternoon to advise DHS may be initiating a look into the Freedom Industries event. They may deploy as early as next week. I do not know the nature or scope of the effort other than to say it is a lessons learned type of thing. OEM would like the OSC involved. Figured this may need to be vetted with Shawn etc. I am not sure what the State's involvement would be and if this is not handled well by DHS, I would be concerned about the impact on Fed/State relations.....namely EPA. That being said, I don't object to Matlocks involvement if u all agree.
